Inware Shuttle Manager™ for *Novell® GroupWise®*

Inware Shuttle Manager™ for GroupWise is an industry proven mail utility designed to migrate e-mail, attachments, calendars, contacts, folders, directories and mail lists from one or more legacy systems to Novell® GroupWise® 5.2 or greater. Shuttle Manager can migrate to and from virtually all email platforms while maintaining the integrity of each message.

Scalable, Proven Architecture

Since its introduction to the marketplace in 1995, the Shuttle Manager has successfully performed e-mail migrations for organizations Worldwide. The Shuttle Manager provides a solid migration solution for small businesses with as few as 10 users, to larger projects with more than 500,000 users.

Performance Driven

Shuttle Manager has the ability to migrate data 5 times faster than the standard free migration wizard. Its modular architecture enables the extraction and loading of e-mail data to occur as separate processes; providing maximum flexibility for incorporating e-mail migration into current processes.

Reliable, Accurate Conversion

Shuttle Manager provides complete address conversion in message headers, calendars and groups, ensuring all messages can be forwarded and replied to post migration.

Parallel Migration Support

Shuttle Manager supports parallel installations of the migration console enabling multiple servers to extract and load simultaneously - significantly reducing migration time.

Unique Migration Projects

Our goal is to meet the needs of our customers. We can customize the Shuttle Manager to meet your project goals so please contact us to see how we can provide a solution for your complex migration. Contact Inware Technologies, Inc. at: 239-592-1816.
